## Licensing system

Please choose 1 option (mixing of both option is not possible)

☐ Standalone (linked to a computer): each TRNSYS license allows the user to install a single instance of the Software on a given computer. The maximum number of computers with TRNSYS corresponds to the number of users of the license. No internet connection required.

☐ Floating (internet license): Users can share licenses through a dynamic server and the software can be used by any computer which is connected to the internet and has the software installed. The maximum number of computers with TRNSYS installed can be greater than the number of users of the license
